Simple Waltz

Don't feel sad, my friend
You will find, my friend
You're much stronger than you may seem

When she broke your heart
You were ripped apart
And you could not help to lose hope

But you're not alone
Let me guide you home
And just simply waltz with me

Don't forget, my friend
What you felt, my friend
Is not only meant for that girl

Open up your eyes
Find your joy in life
And get right back up on your feet

Once you set your mind
to the cheerful signs
You will never waltz alone
