Summer Song

Summer season needs a new melody
A brand new summer tune that's free
One that makes us happy wherever we belong
Then why not call it summer song?

Salsa rhythms blast with new energy
But there's more to it for you and me
Rocking this new theme, well, the party can't go wrong
With this amazing summer song

Singing, dancing, music in the air

With joyful colours everywhere

Living, chatting, cosy atmosphere

That will for certain make us dream

Of this new theme
